BCGDX: Blue Current Global Dividend Fund

BCGDX Celebrates 4-Star Rating

ATLANTA, Georgia, September 8, 2021 -- We are excited to announce that on the 7th anniversary of the Blue Current Global Dividend Growth Fund (BCGDX), Morningstar has awarded the fund a 4-Star Rating for the 3- and 5-year performance periods. The fund was rated against 159 funds (for the three-year period) and 146 funds (for the five-year period) in the World Large Stock Value category based on total return as of August 31, 2021.

Speaking about the rating, Dennis Sabo, CFA, lead portfolio manager for the Blue Current Global Dividend Fund, said, “we are excited to be recognized by Morningstar and we believe the rating validates our strategy of investing in high-quality businesses committed to rewarding shareholders through dividend growth. With low interest rates and accelerating inflation around the globe, we believe rising dividends offers an inflation hedge for individuals looking to generate greater amounts of cash flow”.

Blue Current Asset Management is based in Atlanta, Georgia and is owned by Edge Capital Partners. Incepted in 2009, Blue Current Asset Management oversees approximately \$500 million and specializes in dividend growth strategies. In addition to the global strategy, the firm also manages a U.S. dividend growth strategy and an international dividend growth strategy, both of which are available through separately managed accounts.

Launched on September 18, 2014, the Fund, which is co-managed by Harry Jones and Dennis Sabo, has \$52 million in assets and is available for purchase at most major custodians under the ticker symbol BCGDX.

Mutual fund investing involves risk. Principal loss is possible. The Fund's investment objectives, risks, charges and expenses must be considered carefully before investing. The prospectus contains this and other important information about the Fund and may be obtained by calling 1-800-514-3583 or visiting www.bluecurrentfunds.com. Read the prospectus carefully before investing. The Fund may not be suitable for all investors. There is no guarantee that this, or any,

investing strategy will be successful. Returns from dividend-paying stocks may underperform the returns from the overall stock market. Since the Fund invests primarily in dividend-paying stocks, the Fund's performance may at times be better or worse than the performance of mutual funds that focus on other types of strategies. Performance data quoted represents past performance; past performance does not guarantee future results.

The Blue Current Global Dividend Fund is distributed by Ultimus Fund Distributors, LLC. (Member FINRA) Edge Capital Group, LLC and Ultimus Fund Distributors, LLC are separate and unaffiliated.

The Morningstar Rating for funds, or "star rating", is calculated for managed products (including mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, closed-end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% three-year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods.
